PROTECT YOUR CHILD

DROWNING IS SILENT AND QUICK. Kids don’t splash or scream when they drown.

Stay off your CELL PHONES.

Drownings can happen with many people around. DON’T COUNT ON OTHERS TO WATCH YOUR CHILD. YOU are responsible.

Use a U.S. Coast Guard-approved life vest that fits your child. Keep the life vest on your child until everyone has left the pool area.

Do NOT use floaties or toy rings instead of a life vest. Let’s work together to keep ALL CHILDREN SAFE.

Did you know that children can drown in as little as one inch of water? Bath tubs, water buckets, ice chests and wading pools can all pose a danger to children.

Never leave your child UNATTENDED in the water. Keep DOORS to bathrooms and laundry rooms CLOSED. EMPTY buckets, ice chests and wading pools after use. Store them upside down and out of children’s reach. Once the bath is over, immediately DRAIN the tub.

Use a U.S. Coast Guard-approved life vest that fits your child. Keep the life vest on your child until everyone has left the pool area.

Let’s work together to keep ALL CHILDREN SAFE.
